*Ruminant Free*

## FEEDING DIRECTIONS:

Feed Slow Sink Fish Feed as follows:

- A. Feed at least once a day, either early morning or late afternoon. Broadcasting of the feed should always take place at the same time and from the same location.
- B. Feed approximately the amount they will clean up in 20 to 30 minutes, or at the rate of 2 to 3 percent body weight of the fish per day. Depending upon the feeding activity of the fish, increase or decrease the amount accordingly. Reduce amount of feed when water temperature drops below 55 degrees F.
